

* ASSESSMENT - Tool - 2 :

a) concept map 1 : Cloud computing fundamentals.

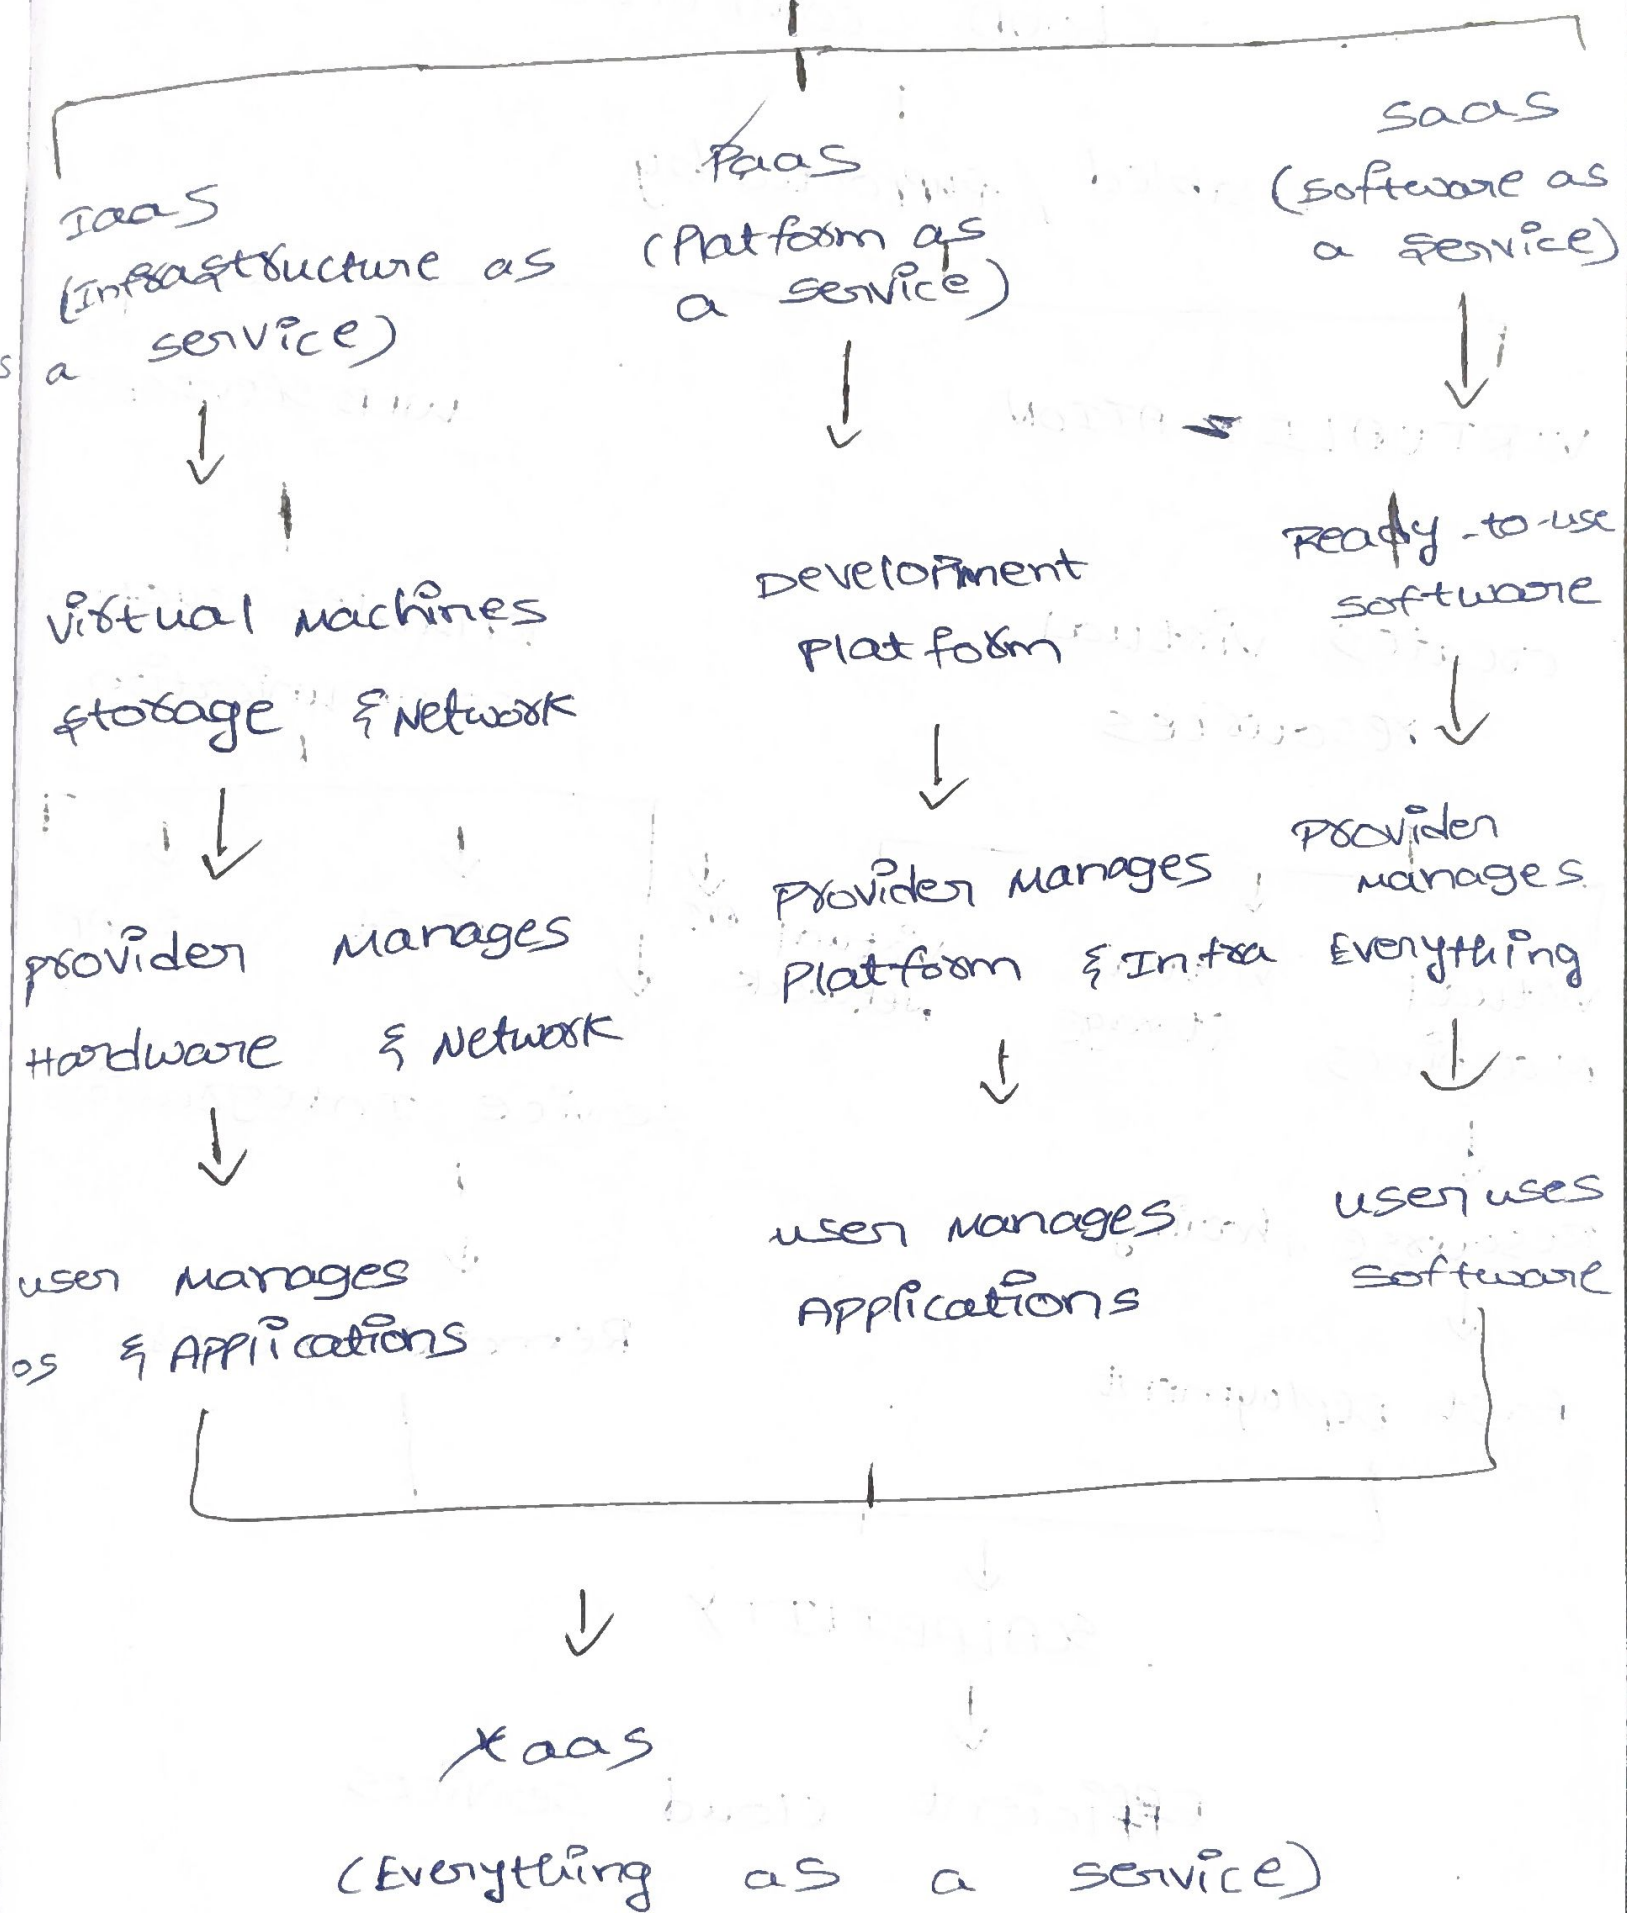

* Concept map 2: Evolution of cloud computing.

EVOLUTION OF CLOUD COMPUTING

* concept map 3 : service models

CLOUD SERVICE MODELS

* concept map 4: virtualization & web services as enablers of cloud

CLOUD COMPUTING

Enabled / supported by

VIRTUALIZATION

creates virtual resources

virtual machines
virtual storage
virtual network

Resource sharing

fast deployment

SCALABILITY

Efficient cloud services

WEB SERVICES

enables system communication.

APIs

REST

SOAP

service integration

Remote Access
